DETAILED ACTION

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 4-22, 24-30 and 32 are allowable over the prior art of record. The closest prior art of record Fresco, teaches managed code application that can access system resources and provide functionality analogous to native mode applications, however it fails to teach redirecting a request for a native resource to a application isolation layer, these limitations being indicated in claims 1 as "redirecting to an isolation environment comprising a user isolation layer and an application isolation layer a request for a native resource", in claim 11 as "redirecting to an isolation environment comprising a user isolation layer and an application layer the request for the file system native resource", in claim 12 as "redirecting to an isolation environment comprising a user isolation layer an an application isolation layer a request for a file stored in a memory element provided by a computer", in claim 13 as "redirecting to an isolation environment comprising a user isolation layer and an application isolation layer a request for a registry database entry stored in a memory element", in claim 14 as redirecting to an isolation environment comprising a user isolation layer and an application isolation layer a request for a native resource provided by an operating system", in claim 19 as "redirecting to an isolation environment comprising a user isolation layer and an application isolation layer a request for a native resource", in claim 24 as "intercepting a request for a native resource made by a process executing on behalf of the user and

redirecting the request to the instance of the resource associated with the user isolation scope", and in claim 32 as "intercepting a request for a native resource made by a process executing on behalf of the user and redirecting the request to the instance of the resource associated with the user isolation scope".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
